Long term EVS in Crisis Centre for children and youth "Kresničkа"

Gvantsa did an excellent job helping in Crisis Centre. She knew how to approach children, gain trust and lift the atmosphere in the house. She recognised when her help was needed anywhere else. She cooked, made decoration for the house, arranged garden etc. Gvantsa was included in all extra activities that were on programme at the time. She helped the staff when they moved into a new house and with the organisation of the grand opening. Occasionally she participated together with employees and children at the Day centre activities, which are organised by social srevices of Radovljica.

Because of her abilities the organisers of annual camp by the seaside decided to invite Gvantsa to participate there as an attendant. Children and attendants from Kresnička also went there. The camp lasted 6 days. Gvantsa was responsible for a small group of children. Together they prepared a dance workshop and a performance at the end of the camp.
